Mr. Jaffurs,

Clinical Solutions Inc. is a Charlotte based consulting company for physician practices geared towards helping physicians implement programs to enhance patients' experiences, and drive profits for the clinic. The idea of dispensing medications out of the practice has always intrigued us, but before PPC, there was not an easy or profitable way that worked. PPC has developed a unique program that truly meets the needs of our practices.

Physicians looking for a solution to increase patient retention and convenience, along with medication compliance, and bring much needed revenue to the bottom line should certainly consider Physicians' Pharmaceutical Corporation's dispensing program.

Best regards,
